Thanks for the heads up.

Keep me posted.

Annie

I think the case might be a plea, so I don't need you on Monday 10/3. I have also told Westport PD not to bring the drugs back to the lab. I'll let you know for sure next Monday.

Weighing and generating a new Cert should not take too long. But Westport PD would have to come back to the lab and pick up the drugs. If they can get the sample to me by Thursday AM, I can try do it either Thursday or Friday AM.

Tues: I have a defense chemist coming for a re-weigh
Wed: may be in court Suffolk Sup and then heading out for appt.
Thurs: may be in court in 9AM

I'm checking on what's up with Westport PD. If you were to get them this week, where would that leave us as far as being ready for trial next week?

Hi,

Westport has not brought back the sample to us yet.

I'll keep you posted.

Hi Annie

Did Westport PD get these pills back to you for re-weighing? If so, what is the status? The case is on for trial next Monday (10/3). I let you know later this week when I have a better idea of whether the case will be reached for trial. Thanks.

Subject: Bristol County (Tan's Sample)

Hi Chuck,

Tan and I have a case scheduled for October in Fall River Superior. Tan has informed ADA Stephen Nadeau that he will be retiring and unavailable for court testimony.

ADA Nadeau had some concerns in regards to the sample & testing. Predominant part of the case involves about 50 grams of oxycodone tablets. The concern is that I did not weigh the sample, so I can not testify to the weight.

Can you please advise him/us on how to address this matter or how to proceed?

Thanks.

Annie
